Dear Neighbor,

Recently, a law firm representing Aptiva, a pest control company, challenged our Village code regulations concerning door-to-door soliciting. According to our Village attorney, the provision in our code on the subject is “potentially constitutionally infirm” (weak), since it goes further than court decisions historically have permitted. Consequently, we – along with other villages in the area with similar code provisions – have struck an agreement with Aptiva to “suspend enforcement” of that provision in our code to avoid potentially expensive – and very likely successful – legal action by the vendor.

As part of that agreement, the vendor has agreed to honor the wishes of all residents on a “Do Not Solicit” list which the Village will provide. If you are not on that list and wish your name and address to be added, please contact either Mike or Sandy immediately with your information. At the same time, if you have not already provided it, please also give Mike and Sandy your e-mail address (and phone number) to expedite our contact with residents in future matters of this nature.

Thanks for your understanding and cooperation.

Sincerely,

Paul Leone Peters, Mayor
